

*Amendments to the Specification*

Please replace the paragraph on page 6 beginning at line 7 with the following paragraph:

A power train from the internal combustion engine 2 to the propeller 4 will be ~~described~~ described. A crankshaft 2a of the internal combustion engine 2 is connected with a substantially horizontal input shaft 3a of the power transmission device 3.

Please replace the paragraph on page 9 beginning at line 14 with the following paragraph:

As shown in Fig. 5, a magnet rotor 9d, which is rotatable integrally with the output shaft 9a, is disposed at the center portion of the electric motor 9, and stator coils ~~[[11]]~~ 9c are disposed along the outer periphery of the magnet rotor 9d, thereby constituting the electric motor 9.
